

What is claimed is:

1. A finger pressure device for acupuncture comprising:

an adhesive tape with an adhesive surface on one side;

a T-pellet attached on the adhesive surface of said adhesive tape;

an one-sided tape with a small hole in the center, having an adhesive surface of the same size with said adhesive tape;

and

a gold plate with a small hole in the center through which an end portion of said T-pellet is inserted.
